

STEM with SteAm in Naperville!

at Prairie Elementary School, 500 S. Charles Ave., Naperville

November 11

Engineering Egg-stravaganza (Grades 1-3)

Can your engineering expertise and rapid prototyping skills outwit the laws of physics?

Challenge your imagination and design skills to solve a technical problem using common household items! Build and test your creation...

Will you be the sole survivor?

Moto-Pets and Vibrobots (Grades 4-6)

Design and engineer your own battery-powered motorized pets. Create vibrobots, bristlebots, and artbots in this creative class. (\$10 lab fee)

Let your ingenuity take shape!

January 20

Lego WeDo Robotics and More! (Grades 1-3)

Build robots such as monkeys, alligators, and birds. Work from our building plans or create your own robots. Program actions and sounds.

The possibilities are endless! (\$5 lab fee)

CSI Challenges! (Grades 3-6)

Reconstruct the crime scene, sleuth the area for clues, and analyze forensic evidence.

Piece together your findings and solve the case!

March 17

Engineering Escapades! (Grades 1-6)

Choose from a variety of STEM inspired projects in a MakerSpace setting.

Challenge your ingenuity, creativity, and innovation! (\$5 lab fee)

Time: 1:30 – 4:00
Tuition: \$45

Online application at
www.centerforgifted.org

This summer at Elmhurst College - July 9-27

Project '18!

*Innovative summer challenges
for advanced learners!*

Grades 5-12

Tinker-A-Thon 2018!

*A MakerSpace for
younger students!*

Grades 1-5
