Igniting Imaginations Since 1983!
Pre-Kindergarten

Create, discover, discuss, delve, and experiment hands-on, to quench your curiosity and appease your brain. Each day, under the tutelage and expert guidance of our gifted faculty, activities will vary based on the knowledge, various interests, and ability levels of our students. No limited preconceptions about preschoolers here!

Kdg-6th grades

Same format as above: Science, technology, engineering, math, art… Where do your interests lie? Come explore your passions, or join in traversing new topics and areas of discovery. Students will work in groups with their age and/or ability peers.

7th-12th grades

Creator Lab Teen Zone: Make it happen here! We have the supplies, equipment, and expertise; you have the freedom to experiment, explore, and create. Work alone or collaborate with your peers in your own teen zone. Faculty will be nearby to monitor activity, and to mentor or answer questions as requested by students. Prepare for serendipitous discovery! (Use of 3D printers, art canvases, and motors for small building projects will incur minimal supply fees.)

Hours

Full day: 9:00-3:00
Half day morning: 9:00-11:40
Half day afternoon: 12:20-3:00
